Media Release

Driving Energy Infrastructure Growth

Atlanta Electricals wins a significant order of Rs 183 crore from BNC Power Projects

For the supply of 400 KV EHV Transformers and Bus Reactor at the Pugal Site

Anand, Gujarat, 15 October 2025: *Atlanta Electricals Limited* ("Atlanta" / "the Company") has won an order from BNC Power Projects Ltd. aggregating Rs. 183.54 crore. This order is for the supply of mix of 315 MVA, 400 KV and 100 MVA, 132 KV transformers and a 400 KV bus reactor at their Pugal site.

This project covers design, manufacturing, testing and supply to the Pugal site. The deliveries will be sequenced post engineering and drawing approvals, providing multi-quarter execution visibility and a steady production run-rate. The order will be executed in the ordinary course of business and will form part of the Company's order book.

Management Comment - Mr. Niral Patel, Managing Director, Atlanta Electricals Limited:

"This is a marquee win in our EHV portfolio and a strong endorsement of Atlanta's design, testing and execution capabilities. The product mix of EHV power transformers and bus reactor, plays to our core strengths and expands our reference base in grid-critical projects."

"For the Company, this order adds multi-quarter execution visibility and supports a steady manufacturing run-rate once approvals are in place, improving capacity utilisation and operating leverage across our Anand facilities."

About Atlanta Electricals Limited

Atlanta Electricals Limited is a leading transformer manufacturer in India specializing in power, auto and inverter duty transformers. With over 30 years of experience and as of March 31, 2025, the Company has supplied 4,400 transformers, totalling to 94,000 MVA, across 19 states and three union territories
